

CITY OF WHITEFISH

E. 6th STREET RECONSTRUCTION PROJECT

PROJECT NEWSLETTER #4

APRIL 2025

PUBLIC MEETING #4 – April 29th, 2025

CITY HALL – 6:00 PM to 7:00 PM

PROJECT OVERVIEW

The City of Whitefish is planning to reconstruct East 6th Street, from Spokane Avenue to Pine Avenue, with additional sidewalk upgrades along Pine Avenue from East 5th Street to East 6th Street. The reconstruction project will involve the design and construction of approximately 1,800 feet of roadway and path along East 6th Street and approximately 500 feet of new sidewalk along Pine Avenue from East 5th St to East 6th Street. The City has selected HDR Engineering, Inc. to complete the civil engineering and aid the City with project management, public involvement, design, and construction services. In addition to the roadway and path improvements, select utilities and drainages along the project corridor will also be improved along with decorative street lighting.

Three public meetings have previously been held to gain valuable input from residents in the project area. During these meetings the City and HDR presented preliminary design concepts, requested public feedback, finalized design and presented the final design concept prior to submitting to the City Council. The City of Whitefish advertised the project for bid the project on March 2nd, bids were opened on March 27th, and the project was awarded to Watson Excavating, Inc. by City Council on April 7th. Construction is scheduled to begin on May 19th.

MEETING AGENDA

This fourth and final public meeting will encompass what the public can expect during the construction process. The City and HDR will be joined by representatives from Watson Excavating, Inc. (Contractor). The agenda overview will be as follows:

- A. Introductions / Project Team Overview
- B. Final Design Overview
- C. Project Schedule / Phasing
- D. Traffic Control / Routing
- E. “What to Expect During Construction”
- F. Q&A
