Definitions:

Residential is defined as single family residential dwelling units, accessory dwelling units, duplexes, and townhomes.

Commercial is defined as all non-residential buildings and other dwelling units not included in the residential definition, such as apartments. Homeowners Associations, non-residential buildings, and other dwelling units not included in the residential definition above will have one utility account for solid waste billing purposes.

Replacement Containers are solid waste containers required to replace lost, stolen, or damaged containers in accordance with the contract with Republic Services.
